

SUBMARINE MANUFACTURING & PRODUCTS LTD

Worldwide Suppliers of Diving, Hyperbaric and Subsea Equipment

Submarine Manufacturing & Products Ltd is celebrating winning the prestigious title of 'BUSINESS OF THE YEAR' at the North & Western Lancashire Chamber of Commerce BIBA's 2009. Hailed as the 'One that they all want to win', the BIBA's is the most ambitious business awards programme of its kind in the North West. The BIBA's 2009 attracted an exceptional level of entries from many of Lancashire's top performing companies - almost 900 entries were submitted with just 14 BIBA's up for grabs.

The Award was presented to SMP Ltd's Managing Director, Phil Connolly, at a Gala Dinner Event attended by over 800 people from a range of industries throughout the North West Region.

Since SMP's relocation to more substantial premises in April 2007 they have seen a tremendous increase in requests from both new and existing Clients for bespoke equipment and services. Both overseas and UK markets are active at present in the following areas: Emergency Remote Location Life Support Systems, Containerised Air Dive Systems both Mobile and Built into New Build Vessels. Additionally the Hyperbaric Medical Market is currently very active as is the Saturation Dive System Market with a number of engineered solutions enquiries expected to reach fruition in the very near future.

Phil Connolly commented "We are extremely proud to win this award which demonstrates the strength of our company as a world class player in our market; our aim is to give confidence and create a safe working environment within our industry. It is testament to the hard work and skill set of our employees at our Preston facility."

The focus of the business plan remains to improve the production facilities to a level where SMP can meet the challenges of the future with its ongoing intention to use these internal efficiencies to allow further improvement in our position in the overseas market by making our products and services more competitive, although SMP products are bought on performance, quality and reputation rather than on price alone.

With outstanding success in terms of turnover and profitability based on old and new business and with additional personnel joining SMP to contribute to the skilled workforce already in place, SMP aim to reach even greater heights in 2009/2010.
